## MID-WINTER PRICE LIST

GREETINGS AND GOOD WISHES TO ALL OUR CUSTOMERS AND PROSPECTIVE CUSTOMERS. We sincerely hope that this has geen a good season for you, and that you have many more of them. We have had a good growing season and are now starting the harvest of a quality crop of bulbs.

For the benefit of some who may not have known of us in the past, permit us to state that we have been in the business of growing Gladiolus commercially for 24 years.

Earlier in our career we made many display exhibits at the various shows, including the National Shows, and have received hundreds and hundreds of awards in ribbons and cups. We were also awarded the Century of Progress Gold Medal in Chicago, 1933, for the best commercial display of Gladiolus in competition with the world.

We are an old established firm offering quality stock, at fair prices with good service. We will not be happy with your order unless you are happy with our shipment. So let's work together.

#### VARIETIES

We offer only varieties that we have tested out and we have selected the following varieties from hundreds and hundreds tested in the past few years. We do not claim to have all of the newest varieties, but we do claim that what we offer are among the best to be had. With fair soil, plenty of sunshine and sufficient moisture our bulbs will produce for you some grand flowers. PLANT 4 TO 6 INCHES DEEP, KEEP FEEE OF WEEDS, MOSTLY SUNSHINE ALL DAY, AND WHEN YOU WATER THEM PUT ON PLENTY. ABOUT 1½ INCHES EACH WEEK, AND SHOULD IT BE VERY DRY AT BLOOMING TIME GIVE THEM WATER TWICE A WEEK. THUS INSURING TALL SPIKES AND LARGE FLOWERS OF THE EXHIBITION TYPE. HIBITION TYPE.

We are making attractive prices, and our bulbs are of the best. We will ship as early as possible, and your acknowledgement will advise shipping

No.  $1-1\frac{1}{2}$  inches in diameter or more. No.  $2-1\frac{1}{4}$  inches to  $1\frac{1}{2}$  inches, No. 3-1 inch to  $1\frac{1}{4}$  inches. No.  $4-\frac{3}{4}$  inch to 1 inch. No.  $5-\frac{1}{2}$  inch to  $\frac{3}{4}$  inch. No. 6-less than  $\frac{1}{2}$  inch.

#### RETAIL SIZES

In retail list LARGE size bulbs are from 1½ inches in diameter up and produce the largest and best spikes. MEDIUM size bulbs are from ½ inch to one inch in size, and produce some excellent spikes. SMALL bulbs are about ½ inch in diameter and some times produce flowers, but produce a large bulb for next season, and generally produce more bulble's than a large bulb. The large bulbs are the ones to plant for EXHIBITION SPIKES.

#### WHAT OTHERS SAY

Paterson 2. N. J.

Bulblets

Dear Sir: Received my order of bulbs today (Sat., Dec. 17) and an well pleased. I checked my order against another catalog and your prices were much lower. Thanks very much for the extras and also for the large size bulbs of Leading Lady (my favorite). I hope that I can grow them as well as these bulbs look. Yours truly, C. G.
